## PROGRAMMER / DIGITAL MARKETER

**I am a NodeJS programmer with 5 years of experience. I have also worked in digital marketing as a moderator and admin.**

### EXPERIENCE

**2021 - present**  
**The Dreamers**

- I increased the engagement of the server members by creating interactive and fun activities, such as quizzes, polls, games, and contests.
- I helped revamp the server by giving it a fresh and attractive look, improving the layout, design, and functionality of the channels, roles, and bots.
- I completed the server's automation backend by developing and deploying efficient and reliable Node.js scripts that handle various tasks, such as moderation, verification, logging.
